

## **SAFETY FIRST**

A FULL FACE HELMET IS REQUIRED, ALSO LONG SLEEVED COVERALL'S MUST BE WORN BY DRIVER DURING RACES. A MOUTH PIECE AND NECK BRACE ARE SUGGESTED.

SAFETY BELTS MUST BE USED WHENEVER THE CAR IS MOVING, IN OR OUT OF THE ARENA,

IT IS SUGGESTED THAT A FIRE EXTINGUISHER BE AVAILABLE IN YOUR PIT AREA. WE PREFER THAT YOU NOT HAVE IT IN YOUR RACE CAR. THEY ARE DIFFICULT TO FASTEN SECURELY AND CREATE A MISSILE IF THEY COME LOOSE DURING THE RACE. A FIRE CREW WILL BE AT YOUR CAR FASTER THAN YOU CAN ACCESS YOUR EXTINGUISHER. IF THERE IS A FIRE IN YOUR CAR EXIT IT AS SAFELY AS POSSIBLE.

THE INSIDE OF THE DRIVERS DOOR MUST HAVE A CUSHION SECURELY ATTACHED TO DOOR SHELL. ALL COOLING PIPES PASSING THRU PASSENGER COMPARTMENT MUST BE WRAPPED WITH FOAM AND DUCT TAPED.

THE BATTERY MUST BE WRAPPED IN SUCH A WAY AS TO PREVENT ACID SPILL IN THE EVENT OF A ROLLOVER.

AVOID HITTING THE DRIVERS DOOR. ANY BLATENT HIT MAY BE CAUSE FOR A BLACK FLAG.

BE CAREFULL IN THE PIT AREA, ESPECIALLY WHILE MAKING REPAIRS. A SLIPPED JACK OR MISSED BLOW WITH A SLEDGEHAMMER CAN RUIN YOUR WHOLE DAY.

TRY TO STAY AWARE OF THE CROWD; WE USE THEM TO PAUSE THE RACE. AVOID HITTING CARS WITH BROKEN FLAGS.

IF YOU THINK YOU'RE GOING TO HIT SOMEONE IN A DANGEROUS MANNER....DON'T DO IT!
